## SCHEDULE - Fall 2022 - NSCC - Bio 211 V08

Synchronous Class times using ZOOM videoconference software: Tuesday 12:30-1:45 In-Class Times on the Lynn campus: Mcgee Building LW309: Thursday 12:30-3:50

Dates below are target dates, and may be modified according the progress of the course content delivery.

January 18 (Tues) January 20 (Thurs)	<ul> <li>→ Start Module #1 – Introduction to the Human Body</li> <li>★ Continue Introduction to the Human Body</li> </ul>
January 25 (Tues) January 27 (Thurs)	<ul> <li>★ Continue Introduction to the Human Body</li> <li>Exam - Introduction to the Human Body</li> <li>→ Start Module #2 - Chemistry of Life</li> </ul>
February 1 (Tues) February 3 (Thurs)	<ul> <li>★ Continue Chemistry of Life</li> <li>Exam – Chemistry of Life</li> <li>→ Start Module #3 - Cytology</li> </ul>
February 8 (Tues) February 10 (Thurs)	<ul> <li>★ Continue Cytology</li> <li>Exam – Cytology</li> <li>→ Start Module #4 - Histology</li> </ul>
February 15 (Tues) February 17 (Thurs)	<ul> <li>★ Continue Histology</li> <li>Exam – Histology</li> <li>→ Start Module #5 - The Integumentary System</li> </ul>
February 22 (Tues) February 24 (Thurs)	<ul> <li>★ Continue Integumentary System</li> <li>Exam – The Integumentary System</li> <li>→ Start Module #7a - Axial Skeletal System</li> </ul>
March 1 (Tues) March 3 (Thurs)	<ul> <li>★ Continue Axial Skeletal System</li> <li>→ Start Module #7b - Appendicular Skeletal System (SS)</li> </ul>
March 8 (Tues) March 10 (Thurs)	<ul> <li>Continue review of both Axial and Appendicular SS</li> <li>Lab Practical #1 – The Histology Practical</li> <li>Continue review of both Axial and Appendicular SS</li> </ul>
March 15-17	Spring Recess, No day nor evening Classes  * Continue review of both Axial and Appendicular SS
March 22 (Tues) March 24 (Thurs)	→ Start Module #8 - Articulations Lab Practical #2 – The Bone Practical (Axial and Appendicular)

March 29 (Tues) March 31 (Thurs)	→ Start Module #6 - Skeletal Tissue Exam – Articulations
	* Continue Skeletal Tissue
April 5 (Tues) April 7 (Thurs)	→ Start Module #9 - Glycolysis and Cellular Respiration Exam – Skeletal Tissue
	* Glycolysis and Cellular Respiration
April 12 (Tues) April 14 (Thurs)	<ul> <li>Continue Glycolysis and Cell. Resp.</li> <li>Exam – Glycolysis and Cellular Respiration</li> <li>Start Module #10 - Myology</li> </ul>
April 19 (Tues) April 21 (Thurs)	<ul><li>★ Continue Myology</li><li>Exam – Myology</li><li>→ Start Module #11 - Nervous Tissue</li></ul>
April 26 (Tues) April 28 (Thurs)	<ul> <li>★ Continue Nervous Tissue</li> <li>Exam – Nervous Tissue</li> <li>→ Start Module #12a - Spinal Cord</li> </ul>
May 3 (Tues) May 5 (Thurs)	<ul> <li>→ Continue Module #12a - Spinal Cord</li> <li>No Exam</li> <li>→ Start Module #12b - Brain, and Autonomic NS</li> </ul>
May 10 (Tues)	No Classes - No Exam (Classes end on May 9) This day is also a potential "Snow Day" for makeup purposes
May 12 (Thurs)	Exam – Spinal Cord, Brain, and Autonomic NS
